Objective

As a passionate and driven individual, I am eager to enhance my skills, creativity, and intellectual thinking through diverse experiences in Computer Science and Technology. I am committed to challenging myself, demonstrating my value to your organization, and earning trust and confidence.

Projects

- **INCOGNITO Technical Fest Website** - HTML, CSS, JavaScript, Firebase

Developed a dynamic website for the annual technical fest "INCOGNITO" to streamline event management and participant registration

Implemented user authentication and real-time database functionality using Firebase for seamless data handling.

Designed an engaging and modern user interface using advanced UI styles such as parallax scrolling, neomorphism, and glassmorphism.

- **Web-Start Workshop Registration Website** - HTML, CSS, JavaScript, Firebase

Designed and developed a responsive website for the workshop "Web-Start" to facilitate participant registration and provide detailed information about the event.

Enabled seamless user interaction by implementing an intuitive interface for registration and event details.

Collaborated with the organizing team and the Dept. of CS to ensure the website met all requirements and enhanced the participant experience.

Declaration

I hereby declare that the above information is true, correct and complete to the best of my knowledge.
